

NEWSMR.060 21 DECEMBER 1988. 1000UTC.

SOYUS-TMS SAFELY LANDED AT 0957UTC.

After a postponement of 3 hours (during the 17th instead of the 15th orbit) safe landing near Dzjeskazgan. The latest pass was appr. 0930UTC when Titov reported that the "controlled" descend was going on and the command for the separation of the "engine unit" had been given.

A detailed analysis will be produced later on. (As we have Christmas time now, can last a while.)

Greetings, 73-s,
Chris van den Berg, NL-9165/A-UK3202
